# 100 SERIES WINDOWS & PATIO DOORS

## STRENGTH & PERFORMANCE

Fibrex® material is **2X stronger than vinyl** and it retains its stability and rigidity in all climates so weathertight seals stay weathertight.

100 Series products can **withstand temperatures up to 150°F**, even in dark colors, meaning they won't warp due to sun exposure.

## ENVIRONMENTALLY RESPONSIBLE

Exclusive Andersen® Fibrex composite material is composed of **40% reclaimed wood fiber by weight**, most of which is reclaimed from the manufacturing of Andersen wood windows.

See how Andersen  
created Fibrex material at  
[andersenwindows.com/fibrex](https://andersenwindows.com/fibrex)

## ADVANCED CRAFTSMANSHIP

100 Series products feature **virtually seamless corners** for a cleaner, more contemporary look.

## ENERGY EFFICIENT

Our weather-resistant construction seals out drafts, wind and water so well, you can relax in comfort whatever the weather. Plus, Fibrex material **blocks thermal transfer nearly 700 times better than aluminum** to help reduce heating and cooling bills.

## FIBREX® COMPOSITE MATERIAL

Developed by Andersen, Fibrex material is a revolutionary structural composite material that blends the very best attributes of vinyl and wood. Fibrex material saves on natural resources because it is composed of 40% reclaimed wood fiber by weight.

Fibrex material retains its stability and rigidity in all climates, delivering exceptional durability. It makes our 100 Series products rigid and strong, so the weathertight seals stay weathertight.

The finish on 100 Series products has superior scratch resistance compared to painted vinyl windows,\* so they'll look beautiful for years to come.

100 Series products can withstand temperatures up to 150° F, even in dark colors, meaning they won't warp due to sun exposure.

# 100 SERIES COLOR OPTIONS

Durable, factory-finished interiors and exteriors feature a premium matte finish that isn't shiny like vinyl, plus, they **never need painting and won't fade, flake, blister or peel.**
